

CARE & MAINTENANCE TIPS

TO KEEP YOUR VEHICLE **EXTERIOR** LOOKING NEW:

- ✓ Wash vehicle regularly
- ✓ Hand Wash (when possible)
- ✓ Limit automatic car washes to touchless or soft touch systems
- ✓ Park vehicle in covered areas where possible

We recommend the use of Paintguard® renewer or an automotive wax every 6 months or 7,500 miles

EXPERT TIPS

- ✓ First, thoroughly rinse the vehicle to remove loose or heavy debris
- ✓ Wash vehicle in sections, thoroughly rinsing with clean water before moving on to next section
- ✓ Dry vehicle using a soft, clean cloth or chamois
- ✓ For stubborn stains or debris, try using an automotive bug and tar remover

AVOID

- ✗ Application of products on a hot car surface
- ✗ Dish soap and non-automotive soaps
- ✗ Parking near sprinklers or under trees

A well-maintained vehicle will give you years of enjoyment and help preserve a high resale value. The best way to keep your vehicle and its finish looking its best is to wash and clean it regularly. We recommend the use of Siskin Enterprises warranted Maintenance and Renewer products, however it is perfectly safe to use other retail automotive detailing products and waxes on your vehicle as they will not negatively affect the original product applications or your Siskin product warranty*.

TO KEEP YOUR VEHICLE **INTERIOR** LOOKING NEW:

- ✓ Vacuum regularly
- ✓ Clean spills immediately
- ✓ Clean Leather or Vinyl regularly with damp, soft cloth
- ✓ Where applicable, use mild leather cleaner to remove dirt

Restore surfaces by applying Leatherguard® Renewer every 3 months or as often as possible

EXPERT TIPS

- ✓ Clean any dirt and debris to avoid build-up, which can advance interior damages.
- ✓ Blot liquid spills instead of wiping to prevent deep staining
- ✓ Dilute stains with water prior to cleaning
- ✓ For stubborn stains, use Permaplate Carpet and Upholstery Cleaner or any automotive carpet and upholstery cleaner following the directions on the package

AVOID

- ✗ Harsh, abrasive or non-automotive cleaners
- ✗ Solvent-based cleaners containing mineral spirits, bleach or ammonia
- ✗ Placing heavy or sharp objects on the seat

*The initial application of Siskin Enterprises warranted products is all that is required to maintain your warranty coverage throughout your warranty term. However, we do recommend the use of original maintenance products and/or other retail automotive detailing products to keep your vehicle looking its best. Product warranty does not cover general cleaning or maintenance.
